

# Lecture 30 — Preparing for the Final

Jeff Zarnett  
jzarnett@uwaterloo.ca

Department of Electrical and Computer Engineering  
University of Waterloo

September 3, 2020

The exam is based on material we have covered in the lectures & labs.

The exam is cumulative: covers from the first lecture to the last.

Lab material you are expected to know covers Labs 1 through Lab 5.

How to prepare for the final exam:

- 1 Review lecture notes, slides, and videos.
- 2 Review your assignment solutions
- 3 Understand your lab solutions.
- 4 Try old exams.
- 5 Ask questions in Piazza if you need.

The exam will have a window of 24 hours.

The exact date will be posted in Piazza after discussing with other 2B instructors.

There will be two parts: a written part and a coding part.

Both are submitted in Learn drop boxes.

The exam will be 30-40% written questions; the rest programming questions.

The written questions will resemble previous offerings' final exam questions.

The programming questions will resemble the labs and assignments.

There will be no questions allowed during the exam (neither e-mail nor Piazza).

You are expected to do the exam completely independently...  
Treat it like a final exam.

“The Force is with you, young Skywalker...  
But you are not a Jedi yet.”
